**VDV Recommendation No. 234 “Driver's Workplace in the Low-Floor Line-Service Bus”**

---

12. August 2020

**Edition 08/2020**

The VDV Recommendation 234 describes the latest developments and specifications for the design of the driver's workplace in the low-floor Line-Service Bus. The specialist expertise from operations, occupational medicine and technology of the VDV member companies can be found, as is the alignment with the European recommendation EBSF (European Bus System of the Future).

The influence of electromobility and future driver assistance systems on the driver's workplace are also taken into account.

This document is intended to serve as a basis for vehicle tenders for the employees of the transport companies responsible for vehicle technology.
